PREDATOR®

REF.	DESCRIPTION	PACKAGING
SEL006	PREDATOR® balconies	Kit of 3, Ø 15cm

- For balconies and terraces
- Waterproof - PVC conception
- The **PREDATOR®** kit includes 3 balloons (yellow, white, black)

DESCRIPTIVE

PREDATOR® is designed in waterproof PVC, with drawings (designs) that represent the wide open mouth and piercing eyes of a predator. Balloons move in the wind (from bottom to top, from left to right) and its metal ribbons simulate a real predator and scare the birds.

When inflated, **PREDATOR®** must be hang on a support or a tree in a visible height for birds. For normal use, we recomand 1 balloon each 500 m². For an industrial use, 15 balloons per Ha.

PREDATOR® is immediatelly effective. Includes three balloons : one white, one yellow, one black. Our research has shown that to be most effective, **PREDATOR®** needs to be installed in alternnating colors each 3 weeks.

PREDATOR® is absolutely harmless for environment and for birds that it scares. It is the absolute answer for agronomical environments, play areas, swimming pool, balconies, etc.
